ABOUT US

BORDARSHIB COMPANY

We believe in human aspiration & innovation, and try to accommodate an atmosphere in which our most valued & special talented colleagues can cooperate in development & transfer of knowledge in the area of their specialties .. thanks to the provided environment of Research & Development with all necessary means & tools.

Bordarshib is honored to offer its more than 30 years of vast knowledge in supplying the Packaging industry all the necessary Paper & Film processing expertise especially aimed at manufacturing all kinds of “packaging tape” and “Self Adhesive Tapes & Labels” and “Release Papers” and “Cold seal & Heat Seal” Papers & Films and many more related products in its facilities with over 400 highly experienced employees at 36000 m2 of workshop in its sites.

APPLICATION

PACKAGING TAPE

Using the right packaging tape is the main step to protect against damage and to provide security that ensures the right adhesion. Packaging tape is a general purpose product and can be used in extremely versatile applications. Packaging tapes or packing tapes are commonly used to close cardboard boxes and are particularly important in the transportation of goods. These tapes can be applied manually with a tape dispenser or mechanically with a box sealer. Our ideal packaging tape product is trusted by many organizations in every industry and is appropriate for packing all types boxes and cartons. We have all the range of packaging tapes you need for numerous businesses and customers can use these cost efficient products with high quality, long-term durability and high adhesive strength along with full confidence and simplicity. Customers apply our packaging tape with complete ease and secure. These products provide an excellent solution for exact needs and fit to all types of industries than can meet all business packaging requirements. High performance, quality and standard of our packaging tape guarantee secure and undamaged delivery. With our packaging tapes, the goods will send throughout the entire distribution network and will deliver to destination without any damages.

PHARMACEUTICAL

Bordarshib is the biggest supplier for the PSA Label in Iran market, serving the whole range of Print house customers both in Reel & Sheet –fed presses, as the materials supplied are used in all sectors as Flexo printing & We-Offset presses & Gravure presses and recently gaining reputation for supply to Digital Printing.

Scope of the supply includes:

- PSA Label for all Product labeling, no matter on Glass & PET & Carton & Foil & etc.
- PSA Label in pre die cut shapes & Sizes for Label printers
- Sophisticated 3-ply PSA Labels & 2-sided Labels in production lines.
- Pre Die cut plain labels and /or printed labels as per customer orders.

FOOD INDUSTRY

Bordarshib PSA Products such as Labels & Tapes and Release liners are handy & helpful in product packaging of "Chocolates" & "Toffees" and wrapping of "Cookies", packaging of Cartons, Product Labeling & etc ..

GENERAL

The vast number of Bordarshib's products in diverse industries have made it possible for us to have a direct and indirect affect on many aspects of the society who have been consuming our products in one way or another. This encompasses consumption of simple stationary tapes used in every household up to high-tech designed products used in assembly lines in AVAC industries. Cooling and heating in heavy metal industries for labeling and protective Laminating needs in educations and art related activities in gift box and carton wrapping and packaging in agricultural and food processing industries, information technology and automation, financial office work and accounting sector covering POS machine consumables and ATM machines, apparel industries, sportswear and most importantly in pharmaceuticals and medical needs as blister foil packaging of tablets and drugs in transportation and airport luggage handling services so wherever you go, you will find a foot print of our products touching lives of them.

PRINTING & PACKAGING INDUSTRY

Bordarshib is the main player in Pharmaceutical packaging needs for :

- PSA Labels as the main Labeling tool on all Medicines & Drugs & etc..
- Specialized PSA Labels used in subzero clinical conditions
- Two sides Labels & 3-ply Labels used in pharmaceutical products labeling.
- Aluminum Blister Packaging Foil used in sealing & Packing "Tablets".
- Alu-Alu, 4 -ply Laminated Aluminum Foils used in packaging of "Sealed Tablets".
- Cold seal Papers used in "Bandage Tape" sealing and packing and also Transdermal application & Heat Seal laminates used in different Hygiene products like "Gloves" & etc.

BABY DIAPER & FEMININE HYGIENE

Bordarshib "Closure Side Tapes" and "Frontal Tapes" used in construction of Diapers and "Release Liners" are the main trademark of this industry ..

1.ADHESIVE TAPE

1. Bopp Crystal Adhesive Tape 35 mic

2. Bopp Crystal Adhesive Tape 37 mic

3. Bopp Crystal Adhesive Tape 40 mic

4. Bopp Crystal Adhesive Tape 45 mic

Description

Our Adhesive Tapes are designed for diverse service temperatures and to be applied onto all Carton Boxes in differing industrial settings .., so offering a trouble free packaging solution to end users.

All packaging Tapes are Crystal Clear Tapes with ability to resist moist & humid and Cold conditions Possibility of Printing Customer Logo on the tapes, in addition to added aesthetic appearance to packaging .., serves as a mean of security to the integrity of the customer product packs as well.

Details

1. Carton Packing
2. Custom logo back print Possibility
3. Available in different sizes
4. High Holding Power
5. For Packing Application
6. Automatic Tape Application Machine Conformity

Bordarshib Product / Packaging Tape

2.GUMMING TAPE

1.Water Activated Gumming KRAFT TAPE

2.Gumming Tape

Description

Offered both in Natural Brown & White Krafts with or without the Back printed Logo of the Customer. This Gum Tapes offer very fast setting time which makes it suitable in high speed Carton Packaging lines.

Details

Water Activated Gumming KRAFT TAPE

1. Used in packaging of cartons.
2. Logo printable on back side of tape.
3. Excellent processibility on automatic carton sealing machines.

Gumming TAPE

1. Application: for water moisturizing tape used as carton packaging.
2. Available with customer logo print on back.
3. Used with automatic tape dispensing machines.
4. Excellent tack and adhesion.
5. High strength for heavy carton packing.

Bordarshib Product / Packaging Tape

3.HANDLING

Carry Handle Tape-CH Tape

Description

This kind of Tape which is made from MOPP film with special formulation of the Glue has a very high tensile strength which prevents any elongation of the Tape while under load of the packed bottles while in movement and transportation. This product has made it much easier for the consumer to carry the high Volume or Heavy packages of the Boxes or Bottles.

Details

1. Used as carry handle on packings of large and heavy boxes and shrink packed Bottles.
2. Highly resistant against stretching while in carrying the packs.

4.MASKING TAPE

Masking Tape

Description

These PSA Tapes with Crepe Paper backing is used in Paint industry in both Construction and Automotive painting sector. These are very resistant to aging under direct Light or elevated heat conditions.

Details

1. Used as paint protection in housing and industrial applications.
2. Excellent protection of surfaces without leaving any residue.
3. Mainly used in automatic industry and also in architectural paint application.
4. Available in different width and length.

Bordarshib Product / Packaging Tape

5. DOUBLE SIDED TAPE

1. Tissue based Double sided Tape (Hotmelt)

2. Double side self Adhesive Tapes (Hotmelt)

Description

- Our Double Sided Self Adhesive Tapes are normally produced with either PP-Film or Paper Tissue as the Backing for double sided Tapes.
- For Production diversity depending on the End user requirement, these Tapes Could be produced in Many different Colors and Also Different Release liners of either Paper or Polyester with specific thicknesses & Release Values.
- Double Sides Tapes have many Applications in different Industries for either Fastening or assembly purposes and Also in Art crafts and Apparel designs & Embellishments.
- Overall, since the use & Application of Double Sided tapes are very Fast & Clean and avoids any messy application of Liquid Glues ..., it has found its diverse application in many Industries .

Details

1. Application in all industrial sectors
2. Used in Apparel and textile finishing
3. Used in printing and packaging, plate mounting and related industries.
4. Used in express carrier bag closures
5. Used in production of frames for photo and posters.
6. Used in Assembly and manufacturing of appliances and electric consumables.

Bordarshib Product / Packaging Tape

6.INSULATION TAPE

PVC Electrical Insulation Tape

Description

Electric Insulating Tapes :

Electrical tape is made from Soft Polyvinyl-chloride (SPVC), Chloroprene rubber film or Polyethylene (PE), as these backing materials can resist high voltage and high temperatures. It is commonly used to connect separated electrical wires for insulating purposes. Our Tapes are known for their excellent properties in resisting high voltage, tolerating a wide temperature and flame resistance. As a result, it has won increasingly high acceptance and a wide share of the domestic market.

Good quality for electrical insulation and wire harness use.

Meets CNS/JIS/UL/CSA

flame retardant, cold resistant.

Specifications:

Thickness:130 Mic

Temp range: -18 °C to 105 °C.

Size: 17 mm X 10-Yard

Offered in Diverse Colors of " Black & White & Green & Blue & Yellow".

Details

1. High quality PVC tape
2. High dielectric insulation property
3. Good tensile strength of the tape
4. Offered in 6 vibrant colors of white-red-yellow-green-black-blue

1.LABEL

1. Aluminium foil Label 30μ Hotmelt

2. Aluminium foil Label 50μ Hotmelt

Description

PSA Aluminum Foils have many application in different Industries especially in HVAC, and Heat transfer Coil Insulation. Depending on the Substrate it adheres and the required force of Adhesion & Cohesion, the suitable Thickness of Aluminum Foil & Proper Adhesive Type is offered. Both Hotmelt & Acrylic Based Adhesives used in this product assembly with Foil Thickness of 30 & 50 & 130 Mic or as per customer request.

Application Conditions:

1-For best result, it is recommended the Foils to be conditioned at least for 24-hours at Normal Room Temperature & RH of 40 to 60%

2-Make Sure the Surface of the substrate to which the Tape will adhere is free of Dust & Grease & Oil.

3-To Avoid Oxidation of the Aluminum Foil , please keep the product away from Direct Sun light & Moisture.

Details

1. Suitable for heating and cooling industries
2. High tac and shear adhesive
3. Excellent adhesion of different bases
4. Could be offered in any thickness of width and length
5. Excellent die cut property

3. PSA Labels – In Sheet (CHROM)

4. PSA Labels – In Sheet (MATT)

5. PSA Labels – In Sheet (Blue)

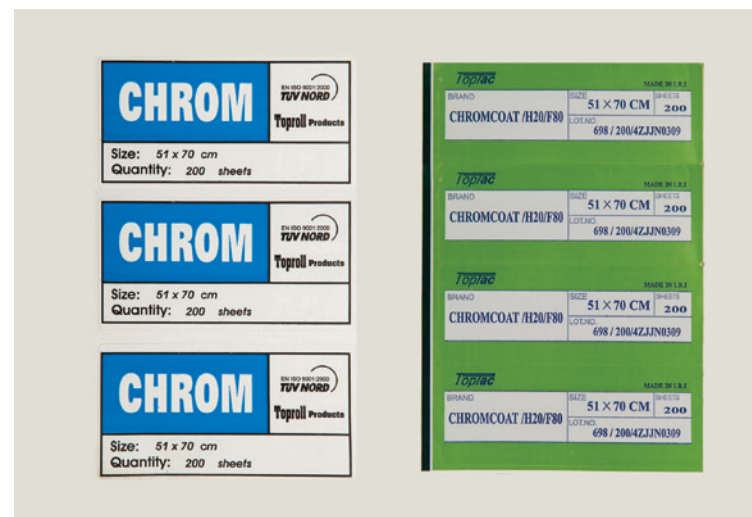

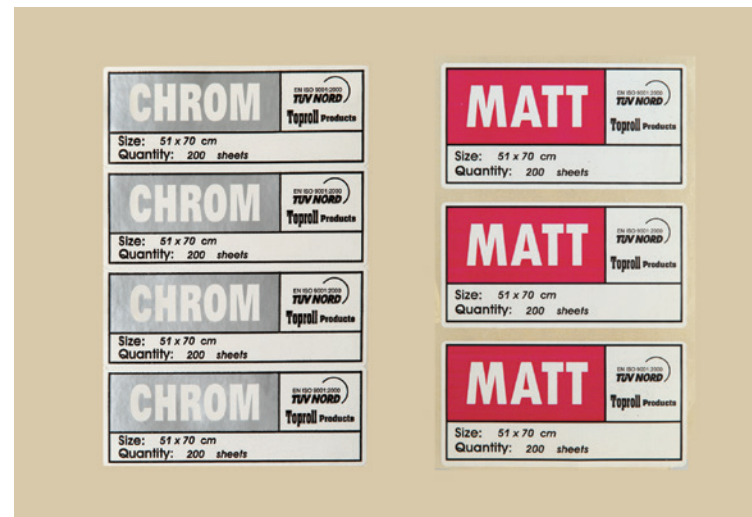

6. PSA Labels – In Sheet (TOP-TAC)

Description

In Pre-cut size Labels in Sheets, as per normal market norm, we provide Labels in Sheets of 51X70 cm in reams of 200 sheet/ream & 44 Reams per pallet. As we choose the right kind of Paper & Films which are compatible with all kinds of Printing presses like Flexo / or Roto Gravure/ or Web Offset, or letter press. These Labels in sheets are manufactured in a way that provides highest speed attained at different printing presses with fast drying and also favorable die cutting properties.

Details

1. Excellent adhesion to difficult surfaces
2. Suitable for printing and labeling
3. Suitable for high-speed sheet-fed offset printing
4. High quality printing papers
5. Different brands of CHROM – TopTac – Matt – MATIS which all are based on different face stock and release lines as per customer preference of gloss and stiffness and etc.

RELEASE PAPER

4. PEK Release liners (Yellow PEK)

5. PE – Coated KRAFT Release liner

Description

PEK Release liners used mainly in assembly lines in automotive industry as in Yellow Backed PEK & White PEK Release liners , available in 58 to 110 gsm in White/Yellow/Printed forms.

Details

PEK Release liners (Yellow PEK)

1. Used in production of PSA label as backing paper.
2. Suitable to cover sticky surfaces on adhesive coated parts used in automatic industry.
3. Due to its PE coated reinforcement, it is very much appreciated in special high speed label applications.
4. Available in all sizes.
5. High strength

PE – Coated KRAFT Release liner

1. Release liner as to protect against adhesion.
2. Used as backing paper in PSA laminates.
3. Available in different width and length.

5. Silicon Coated Release Films (PET – PP – PE)

Description

Two side Silicon coated Release liners used in multilayer PSA Labels for diverse application.

Details

1. Suitable for pharmaceutical and industrial usage.
2. Capability for printing the logo and name of the customer.
3. Could be produce in any thickness as per choice of the customer
4. Available in diverse width and length

Bordarshib Product / Paper

2. PACKAGING PAPER

1. Heat sealable packaging paper

2. Cold Seal Coated Paper

Description

This is offered in 50 gsm PEK Paper with Heat Seal property and also in 40 gsm CCK paper with Cold seal property. It can be used both in Food industry packaging and also Hygiene Tape application. The Heat seal product is pressure applied with Heat, but Cold seal product is pressure applied under normal atmospheric Temperatures , and application is mainly in Gum & Chocolate packaging. These can be supplied in Plain or Logo printed as per customer request in different width & lengths.

Details

Heat sealable packaging paper

1. Packaging of all food and industrial use.
2. Capability for printing the logo and name of the customer.
3. Could be used with heat applied presses.
4. Available in diverse width and length.

Cold Seal Coated Paper

1. Used as packaging of medical band tape.
2. Used as packaging of food and chocolate products and Chewing gums.
3. It is sealed by cold pressing in packaging machine.
4. Logo printable on back.
5. Available in any size.

Bordarshib Product / Paper

3. PHOTO GLOSSY PAPER

1. Coated Photo Glossy paper PSA Label

2. Photo Glossy A4 Paper

Description

Photo Gloss Papers :

These products which are made of highest quality Glossy Print Papers, are mainly used in “photo ” picture printing at professional “Photo ” print shops, or in personal “photo ” printing printers. 1.HOTMELT GLUE

Hotmelt Glue For PSA

Description

Pressure Sensitive Adhesives based on synthetic rubbers for a very diverse application in different industries are produced under the product line of BORMELTS and supplied to different customers for their application of either permanent or temporary removable cases.

Details

1. Suitable for PSA Label and Tapes.
2. Suitable for carton sealing.
3. Suitable for application temperature of 130°C to 180°C.
4. This product is supplied in solid form in 0.5 kg, 1kg, 5 kg of release paper packaging and in 200 Kg drums.

2.ACRYLIC ADHESIVE

Pressure Sensitive Acrylic Adhesive

Description

The pressure Sensitive Adhesives used in different industries are all produced at Bordarshib's Adhesive Polymerization Plant. It is manufactured for diverse application use as in range of different Viscosities and Solid contents with differing degree of Tack & Adhesion & Cohesion. It can be supplied in 200-kg Drums, or 1000-kg IBC containers, or in Bulk carrying trucks of 20000 liter.

Details

1. Used in production of PSA Tapes and Labels.
2. High Tack and sheer adhesive
3. Different formulations for other application such as "Wood Glue" – "Tile Glue" – "Wall paper Glue"
4. Available in packagings of 100 Kgs, 200 Kgs and 1000 Kgs and in bulk of 20000 Kgs.

Bordarshib Product / Glues

3.GLUE STICK

Glue Stick For Glue Guns

Description

Glue Stick For Glue Guns:

EVA based Hot Glue ROD is used in Hot Glue Gun applicators used for fastening the cartons & also in decorating apparels & in texture & Sealing & light packing applications. The main advantage of this Glue is its Fast setting after application and very High Adhesion & strength of the Glue to hold the Fastened layers to substrate. Please notice to use this Hot Glue only on the surfaces & substrates which can tolerate higher Temperatures of around 90 degree Centigrade , and would not be damaged at this Temperature. These Hot Glue RODs are offered in two basic sizes of 7 mm & 11 mm with 270 mm length in 1-kg packages.

Details

1. suitable for fastening boxes and decorothy wrapping
2. fast setting
3. high adhesion
4. caution: max temperature of 100.c at melt
5. in two sizes: 7mm*270mm/11mm*270mm

BLISTER

2.Alu Alu Foil for Pharmaceutical Packaging

Description

This Alu Alu foil has extensive use in packaging of Tablets & other medical drugs.

The 135 Mic Thick Alu Alu Foil has very high Barrier properties in protecting the Tablets which are very sensitive to Humidity & Light ..., so making it possible to be preserved for a longer storage time at its best conditions.

Thanks to superior barrier properties of 5 –layered Alu Alu foil , which gives it a unique and un-parallel properties to keep the sensitive medications out of the harms of UV light & Oxidation .

Highly sealable & formidable structure of Alu Alu Foils are other properties to be mentioned.

Details

1. One of the most commonly used packaging product in pharmaceutical Industry
2. Suitable Material in Food Packaging applications
3. Full compatibility with all Food & Drug packaging standards
4. Highly Printable.
5. Availability in different Width & length as per Customer order.
6. Suitable as Barrier Packaging against moisture & Wet environment.
7. Very high tensile strength to resist against rupture & puncture.
8. Highly Sealable & Flexible.
